Clean

DEDICATED TO MAKING YOUR BUILDING LOOK AND RUN ITS BEST

Your carpet is often the first impression you make when someone walks in your building.

Make sure you look your best and maximize your carpet investment with ServiceMaster Clean® carpet cleaning.

Continued care.

Get the most out of your carpet. Our programs for continued care use innovative products and techniques along with the manufacturer's latest care instructions to extend the life of your carpet and keep it looking clean and fresh. We help prevent soil from building up in the carpet fiber base and avoid the dull, lifeless look of carpets that are cleaned too infrequently. Routine carpet care also prevents matting, spotting and excessive wear, leaving a more consistent and pleasant appearance overall.

Enjoy a better-looking carpet and avoid the cost of frequent replacement, all for a low monthly investment. Plus our clear, manageable fees eliminate surprises or increased costs from one cleaning to the next.

Commercial specialty cleaning.

We have the experience and most advanced methods and materials for maintaining your carpet's appearance and your company's image. That's why thousands of businesses depend on ServiceMaster Clean nationwide for commercial specialty cleaning needs.

Our commitment to thoroughly understand your needs and provide simple billing are just two of the ways we make it easy to do business with us. Contact us today to create a specialized cleaning plan.
